Letter from Nanaimo.

Editor British Colonist:—The Gov. ernment it seems is beginning to take some notice of this place, and high time they did, notice of this place, and high time they did, I think. Mr. Green, surveyor, has laid out a town on the north west bank of Millstone river—to be called Newcastle. The site seems a good one, and is well laid out.

Everything is very quiet here just now. After the shooting business the Northern Indians all cleared out. I suppose it was only a farewell shot. May their shadows ever grow less.

only a farewell shot. May their shadows ever grow less.

The Hudson Bay Company's steamer Otter arrived here last Tuesday, took in coals, and left last evening for the North.

Major Downie came in here this morning on his way to Victoria. He seems to have experienced many hardships since he left Victoria, but is still in his usual spirits. He had some little trouble with some of the Indians up North. He brings a number of specimens of different metals. I hope they will turn out something rich for he deserves good luck.

A. good luck. Nanaimo, 18th August, 1860.

Nanaimo, 18th August, 1860.

A Modern Politician.—Dennis, alias Michael Brown, was found, according to the Boston Herald, a few evenings since in the streets of that city, addressing an imaginary audience concerning the great principles now agitating the country. Mr. Brown, after cooquetting with a bottle of whiskey, is usually taken in that way, and it was judged by the police that Mr. Brown would be benefited by complaining of him as a common drunkard, and sending him to the place where whiskey is unknown, except upon special occasions.

"May it please the court," said Mr. Brown, squaring his shoulders, as though about to hold forth to one of his imaginary audiences, "would it make any difference regarding my case if the court was informed of my politics?"

The court looked at Mr. Brown in astonishment.

The court looked at Mr. Brown in astonishment.

"Hurrah for the Little Giant!" shouted Mr. Brown, with a keen look at the court to notice the effect of the announcement.

"Two months in the House of Industry," the court said, mildly.

Mr. Brown thought he was on the wrong track. He changed immediately.

"Hurrah for Lincoln and Hamlin!" he shouted as loud as ever.

"Two months," repeated the court, not moved the slightest by the cheer.

"Sold again," muttered Mr. Brown.

"Only one more chance," and then he shouted:

"Hurrah for Bell and Everett, and d-d

if I try again if we never have a President!"

dent!"
"Take him away," said the court, " and

"Take him away," said the court, "and stop his noise."
"This is a mean, one-horse town," murtered Mr. Brown. "One such a yell as I gave would have set me free in New York, and the honor of drinking brandy with half a dozen of the Aldermen. This is not the city for a man of genius."

If either of the great political parties want Mr. Brown, he can be found without much trouble.

ROMANTIC.—The Oswego Times tells a good story of a fashionable lady of that village, whose parents are not possessed of wealth in proportion to her pretensions, who excused herself to a visitor for doing house-

work, thus:

"Mother and I. do our own housework, because it is so exceedingly romantic."

AFFECTING.—A country editor closes his leader in this unhappy strain: "The Sheriff is now waiting for us in the other room, so we have no opportunity to be pathetic; we are wan and must go. Delinquent subscribers, you have much to answer for. Heaven may forgive you, but we never can."

Friday Morning, August 24, 1860.

The Judiciary.

In no community, large or small, that we wot of, was there ever such an everlasting din of "injustice," "indignation," "wrong," "official incompetency," "illiberality," and "old fogyism," with the cry of "reform," as has been kicked up in this and the neighboring colony during the last two years Sometimes we imagine it a perfect pandemonium. "Things do not go right," is a phrase in everybody's mouth.— Either the transplanted scions of that old grumbler, John Bull, have improved on his hereditary propensity, or there is a radical evil intensified, existing somewhere in the body politic. Every day its the Governor; between times the Assembly; sometimes the Clergy; occasionally the Police Com-missioner; and often as it is now the Chief Justice, highly spiced with the savings and doings of embryo Lord Chancellors, and decrees proving "the glorious uncertainty of w." A continual hub-bub is kicked up. There's a screw loose somewhere, or somebody has had the screws put to him by somebody who had no right to do it. Were we not disposed to bring all these matters to 'line and the plummet," and "the law and the testimony," in our censorial office as a universal regulator, we would become as skeptical of human governments as many self-styled emancipated minds are of the divine economy. The result, however, of applying an accepted standard to the " ing evils" and "monster wrongs," is that we have grievances in any quantity. That in ours, at least, whatever it may be in other communities, the voice of the people is the voice of truth, and our verdict is that "we are a badly used people, with a strong recommendation to mercy from Downing

street, or some other Suzerain lord."

The latest "grievance' is our Attic salt. In fact we have become perfect salamanders for if we cannot live in a firey furnace, we get along first rate "in hot water." The latest grievance, however, is a question that cannot be blinked. It affects the best interests of the community. Commercial transactions are dealt with by our courts in a way not according to the usual practice of courts of civil justice nor courts of Admiralty. It appears that a man named Melvin, master and owner of the Schooner Elizabeth, made two promissory notes at Olympia on 21st July last, in favor of one Harris for \$74 and \$80 respectively. These notes were payable at thirty days. On the 20th-Melvin and the schooner being in our harbor-the Chief Justice, upon the application of Mr. Dennes, solicitor for Harris, issued an injunction against the Schooner Elizabeth which commanded Melvin to "absolutely desist from allowing the Schooner Elizabeth to depart from Victoria harbor till the Court ordered to the contrary." From these facts it appears that an injunction was granted when there was no debt due; for the notes allowing the usual three days' grace did not mature till the Melvin was detained a couple of days and then suddenly disappeared and we presume paid the debt on this side or satisfied the injunction with "the fore topsail," although he returned to Washington Terri-tory, where no doubt he will answer to the claim. Commercial men see a great deal to censure in this transaction; and as for lawyers they conclude that it is impossible to advise their clients what to do if injunctions are to be granted against men for debts not matured. All commercial transactions may be completely upset; everybody's business turned topsy-turvy. Promissory notes on time are by this rule as valueless as burnt paper; they are not held to be binding. Where such principles may extend, or where end, no one one can The case is a curious one, indeed. Melvin walks about the streets, and his vessel is in limbo. The debt is not due; and yet he cannot return to where it was con tracted either to pay it or attend to his business. Carry the principle out, and our citizens may be compelled to remain within the jurisdiction of the Court, like travellers were compelled to stay forever within the mysterious dominions of Prester John; or as the French, Austrian, Russian, and other absolute dynastics, forbid the departure of their subjects. If an injunction can be

granted to stop a vessel from going away when the debt of her owner is not due, why can we not get a mandamus, or some other to compel a vessel to go away in order to be at Olympia when the debt is due? It's a poor rule that won't work both ways.

The serious part of this matter, however, is: that such indicial orders or similar decrees will injure us abroad. Commercial men, coasters, shipmasters, and shipowners will steer shy of a port where such irregular proceedings are unfortunately too common. Although done with the best intentions to secure to the creditor his demand, yet they should not be done except in strict conformity with the law. In this case we leave it to those better skilled in legal lore than we profess to be, to settle the knotty question. But if law is common sense, and if judges represent justice, we fail to see either in "the last grievance."

New Westminster Address to the Prince of Wales. The Municipal Council of New West-

ninster-determined not to be a whit be

hind our Assembly in expressions of lovalty

and attachment to the heir apparent to th throne, though they were in the time of it-have voted an address to the Prince of Wales. It is a curious document, showing that the occasion of giving a cor-dial welcome to His Royal Highness has been used to further a practical object. One might naturally have supposed that their burning loyalty would have suggested the propriety of not interlarding a welcome with their grievances; but the New Westminster Council are an eminently practical people The future monarch must be used. must be informed that absolute and absentee governors, secretaries, attorney-generals and such ilk, are playing truant, and that the only hope of British Columbia is the New Westminster Council and "the heir apparent." We think the end justifies the And were it to happen that within the next half century that His Royal Highness practically took notice of their grievances, it would certainly be very gratifying to all concerned. But we fear that there is little hope from that quarter till the Imperial diadem sheds its lustre around his brows. is possible he may condescend to knight Mayor of New Westminster. The Councilors need not expect that honor, for our legislative Solons were effectually, but properly, debarred by the decree of the Speaker from signing the Assembly address. They were thus deprived of the exquisite pleasure of imagining their names pronounced in courtly accents at the finale to the address; and consequently their buoyant hopes of knighthood were prematurely blasted. None, therefore, but "the First Com-moner in the land," (whether that means the commonest fellow in the land, we leave for students of constitutional history to solve,) and the Mayor of Westminster need hope to be knighted-although some think that one or other has long been in a be-nighted con-We hope they may be honored with dition. We hope they may be honored with a semi-patent of nobility for speaking out their loyal sentiments, as they certainly do not belong to the dumbocracy—a class of colonial bipeds who either suppress their opinions, or have none to express; for rare specimens we refer to the government benches. There is a curious remark, nevertheless, in the Westminster address, which we cannot help noticing before we submit the document itself. It says: "This Council begs, in the name of this city, and the whole of this important colony." We are certainly nleased to learn that British Columbia cil begs, in the name of this city, and the whole of this important colony." We are certainly pleased to learn that British Columbia is represented at last, and that the jurisdic-tion of the municipal council is so exten-sive. It may now literally, not figuratively,

No pent up Utica contracts our pov For all of British Columbia is ours

On the whole it is pleasing to witness demonstrations of loyalty—so here is the loyal address of the Council of New Westmin-

TO HIS ROYAL HIGHNESS THE PRINCE OF
WALES, DUKE OF CORNWALL, &c., &c., &c.
Hearing that it is the intention of Your
Royal Highness to visit Her Majesty's possessions in North America, We the members of the Municipal Council of New
Westernister the capital of Ritish Column sessions in North America, We the members of the Municipal Council of New Westminster, the capital of British Columbia, in council assembled, in the absence of a resident Governor and other important officials who have been appointed to us from England or any representative body by which the voice of the people can be heard except this council, beg in the name of the inhabitants of this city and of the whole of this important colony, which must for its rich gold and silver mines, as well as boundless arable land, become the future home of a great portion of the human race, and which we hope in a few years may be joined by means of a railway to Canada, adopt these means of greeting Your Royal Highness with a cordial and respectful welcome on your arrival in North America.

We wish you every happiness and that the great Architect of the Universe will extend his protection over you during your stay amongst our fellow-colonists, and that you may have a safe return, and that the day may not be far distant when the people of this colony may have an opportunity of expressing their loyalty to you person.

THE VICTORIA STREET IMPROVEMENT BILL.-This bill has at last passed a com mittee of the Whole House of Assembly, and provides fer the macadamizing of cer tain of the streets of this city. The money to pay for these improvements is to be raised by a direct tax of five-eighths of one per cent. on the real estate of the town, in addition to the colonial levy of one per cent. to be collected from the same source. The amount required to make the impovements is £2,000 His Excellency the Governor is to have control of the money so raised, and is to advertise for tenders, and give out the contracts to the lowest bidders. Each section is to be contracted for separately. In addition to the improvement of the streets, cistern for the use of the Fire Department is to be built at the corner of Yates and Government streets. The following are the sections to be improved: 1. Yates street from Government to Douglas; 2. Government street from Johnson to Pandora; 3. Pandora street from Government street to Douglas; 4. Store street from Johnson to Pandora; 5. A foot-bridge on Broad street from Johnson to Pandora; 6. Fort street from Government to Douglas; 7. Pandors street from Government so as to perfect a junction with the North Road; 3 street from Yates to Johnson; 9. Draining of the road to the Springs; 10. Humboldt street from Douglas to the Parsonage; 11 Fort street from Douglas to Blanchard a section of the bill it is provided that the first six sections mentioned above shall be con.pleted in a substantial manner before the remaining five sections are commenced The contractor is to keep the work in good repair for six months from the time of completion, and the colonial treasurer is made the custodian of all the monies.

THE "PRICES CURRENT."-Mr. A. F. Main, well known to our mercantile community, has purchased the Prices Current, Mr. Stenhouse having terminated his connection with that journal. Under the management of Mr. M. we have no doubt the Prices Current will continue, as heretofore, a valuable medium of intelligence to the commercial classes.

Esquimalt Road.

Yesterday, our well known citizens Messrs. Skinner and Harris waited on Justice Pemberton to see what he could do to patch up Esquimalt road, inasmuch as higher authority foregoes the pleasure of mending our ways. We learn it was concluded to raise money enough by private subscription to find material to repair the bridges-and Mr. Pemberton volunteered the services of the Chevalier d'Industrie to the services of the Chevalier d'Industrie to do the work. This is coming to a pretty pass indeed. Money raised and voted two years ago is not expended nor no account given of it; and private citizens pay voluntary taxes to meet charges against the public exchequer. Where's the member for Esquimalt? and the members of Esquimalt? One is on a voyage of discovery up North, neglecting the interests of his constituents. Why not here to discover the missing \$1800 ? Another is absorbed in financial schemes—every twenty-third dollar. The third, where is he? Not mending Esquimalt road, at least. We the people-admire representative government; but except the glorious triumvirate do something soon for their constituents, we will vote for the people doing it themselves.

VEGETABLES AND FRUITS AT FORT RU-PERT, V. I .-- Through the kindness of Major Downie, Mr. Winton, the Hudson Bay Company's officer in charge of Fort Rupert, has favored us with a table showing the seasons at which vegetables and fruits ripen there Fort Rupert is several degrees north of Victoria; and yet evidently the seasons are much earlier than here. A fine agricultural district exists in that neighborhood, either skirting Kimkish river or in its vicinity, and stretches out toward Nootka on the west coast. The sample of strawberries sent us by Mr. Winton, (for which he has our thanks), are of the red cultivated species, some of which are nearly three inches in circumference. Annexed is the table of the vegetables and fruits referred to, with the dates at which they ripened:

DROWNED IN THE FRASER .- Mr. L. F. Bodkin, a worthy, industrious man, was drowned on the 15th instant, about four miles from Boston Bar, while on his way down to that place with a canoe load of beef which he had just slaughtered. The accident was caused by his attempting to run a small but dangerous riffle. An Indian and a Chinaman were in the canoe with him, but clung to the boat and were picked up about three miles below where the accident Bodkin had occurred, by some miners. considerable money on his person when he was drowned. He was a native of the United States, about thirty-five years of age, and expected lo leave for home in a short time. Bodkin was one of the party who strock the rich deposit of gold on Island Bar, late in the fall of 1858, and after toiling all winter, started in March, 1859, for his far distant home, with a large amount of gold dust. He embarked in a whale-boat at Fort Hope, and when opposite Harrison river, the craft struck a snag, and the occupants were precipitated into the water. They were all saved, however; but Bodkin's money, (some \$2,000), which was in his coat-pocket, was lost. He immediately borrowed a few dollars from some friend and retraced his steps to the scene of his former labors, where, after a year-and-a-half of patient industry, he had succeeded in amassing some four thousand dollars, and just as he was on the point of again visiting his friends in the East, another disaster occurs, and he is hurried into eternity. His loss is universally regretted by all who knew him.

House or Assembly .- This body met The petition of the electors of vesterday. Esquimalt against the return of G. T. Gordon as member for that township, was received and referred to the General Committee The House then went into Committee of the Whole on the bill to levy a tax of one per cent. on all the real estate in the colony, and at six o'clock rose and reported progress thereon. The House then adjourned till to-day at 3 o'clock, P. M. A report of the

proceedings will appear in our next issue.

CATALOGUE SALE.—J. A. McCrea will sell at auction this morning, at his sales-room, Wharf street, a large and extensive assortment of dry and fancy goods. This will be one of the largest sales of the kind this season, and is well worthy the attention of dealers and others. The sale will commence at 11 o'clock.

Dr. A. Melanis, of Lytton City, arrived on the Wilson G. Hunt on Wednesday evening. He informs us that everything seems prosperous along Fraser River, and that numerous new flats and benches were being daily opened for mining purposes.

Messrs. Vesey, McCann & Co. are bring ing in a ditch from China Creek, six miles above the Twenty-one-mile House (between Boston Bar and Lytton City). will be six miles long, and will be used in working a succession of benches and bars that have heretofore prospected very well, but have not been worked, owing to the scarcity of water.

Between 500 and and 600 men are at work on Van Winkle Bar, a short distance above Lytton City, about one-half of whom are Chinamen. The diggings will give are Chinamen. The diggings will give employment to a large number of men for two years to come.

Another large ditch is being surveyed for a company on China Bar (head of the Big Cañon), which is intended to supply an ex-tensive flat in the vicinity.

Dr. McInnis saw a Similkameen Indian

at Yale, the day he left, who said that he had reached Boston Bar in four days from Rock Creek. He came through to buy salmon. It is said to have been a custom with the Similkameen Indians for many years to come into Boston Bar and exchange articles of their own manufacture for salmon with the Qui-ome Indians. The trail by which they come is thought to be by way of the head-waters of Anderson River. Some of the Qui-ome Indians assert that they can make the trip in two days from Boston Bar to Rock Creek. Parties will probably be sent out to explore this trail at once.

Messrs. Powers & McRoberts have been awarded a contract for building a trail along the river from Spuzzem Ferry to Boston Bar a distance of 18 miles.

The packers from Yale are taking their stuff around Rocky Point in boats, and meeting their animals on the other side, pack over the new trail to the ferry. It is a fine trail—as level almost as a road.

Very little is doing at Hill's Bar in the way of mining. Furniss' Flat, opposite Yale, is

PETITION DENIED .- Seventy-eight of our citizens signed a petition on asking his Excellency Governor Douglas to commute the punishment of Allache, Chimsean, convicted of the murder of the negro Brown, and sentenced to be executed to-morrow, to imprisonment for life. The request was denied, we believe, on the ground that it was necessary to make an ex ample to prevent future occurrences of the kind among the Indians.

THE ESQUIMALT ROAD BRIDGES .- Mr. Colquhoun, Superintendent of the chaingang, was yesterday directed by the Police Commissioner to proceed with a portion of his men and place the bridges on the road leading to Esquimait in repair.

SILVER ASSAY .- An assay was made yesterday for Norris, Cox & Co., by Mar-chand & Co., of a piece of silver ore from the Greenwood lead, which yielded at the rate of \$300 in silver, and \$150 in gold to the ton. The piece assayed was picked up at random from among many others.

POLICE PAY .- The police have received no money as yet for their services during the month of July. The amount, small as would no doubt be very welcome to the force if paid regularly.

But we who would win that heritage
On the mountain height revealed,
To the Present's stern, relentless call
The brightness of hope must yield.
Must turn with a willing heart and st
From the Future's charmed beams,
For the work we have to do to-day
Is worth an age of dreams.

We must wake to patience, wake to toil,
And hide deep, deep within,
The beautiful vision that charmed our youth,
Of the land it is ours to win;
We must tread with cheerless and tireless feet
The dreary wilderness way—
Must follow the pillar of fire by night,
The pillar of cloud by day.

For the light is gone out from yesterday, To-morrow is far away,

To morrow is far away,
But close at hand, with a living voice,
Speaks the angel of to day—
"Let the work which the present hour demands,
Thy hands and thy heart employ,
And the future, unsought, shall come with a
crown

Of victory and of joy!"

DRUGS & MEDICINES.

DR. ADOLPHUS' ANTI-RHEUMATIC CORDIAL

Health Restorative

Health Restorative

Is the most valuable and unsurpassed remedy for Rheumatism and Gout to
be found in the world, or known at present. The
discovere of the above medicine does claim its infallibility in all cases of Rheumatism and Gout-when
used according to direction—and does ofter reward
of five thousand solials of the control of the control
is the control of the control of the control
is unbled to offer the above reward on account of his
musting used the above medicine for ten years in his
practice, and has never known it to fall in the cure of
the most protracted cases of Rheumatism and Gout,
and withstood all known remedies to the profession.
Doctor Adolphus is known and rightly celebrated
throughout the State, for his cures in Rheumatism,
Gout and Chronic Diseases, and has only to the continued urgent efforts of his patients, and through the
desire to help them who are not enabled to see him
personally, or to spend a fortune to get rid of the discase, which they have contracted in the pursuit of
their daily calling; only this has been able to persuade the Doctor to give the above medicine to the
public, and at such terms that every suffering one
should be able to reap its benefits.

As a Health Restorative its value supersedes all the
mineral of the control of the control
in the control of the control
in secondary and tertiary Syphilis, Scrofula, Enlargement of the Glands, Drops, and all Nervous
and Cutaneous Diseases, and the whole train of Chronic Diseases, which withstand and baffle the skill of
the most excellent and learned physician in the
world; in Chrone Diseases whose very name is a
terror as well to the physician as to the patient. this
medicine has proved to be superior to any in exist
ence, and has cured in so short a time that they appeared like being abolished by magic influence, and
in fact a few more such discoveries, and druggists
will not need to keep a lot of useless medicines on
hand, whenever they are prescribed once in a ten
secor they have lost through time their pro

which their value did reside. If there was actually any in them.

Take this medicine when your digestive organs are disordered and your blood is impure, it will surely act on your bowels.

Take this medicine when you have a cold, and it will make you perspire freely.

Take this medicine when your urinary and absorbing organs are disordered, and it will act on your kidneys—it penetrates every part of your body, searches even the most remote and secret recesses of your system, and removes the disease located there—it restores healthy action and gives tone to every organ in the human body—therefore it has zighteously deserved the name it bears: Health Restorative.

lt restores healthy action and gives tone to every organ in the human body—therefore the has righteous ly deserved the name it bears: Health Hear Gibteous wishes it to be understood that the above medicine is no such thing; but that he has, through the introduction of this medicine with its treaties and directions for use, made every sufferer to be his own physician in the above named diseases.

Thinking it under my dignity to tollow the mode of quacks, by appending certificates of physicians or private persons, which is too well known can be had for certain remunerations, applications of friends, or by the mode of boring a man half to death for even the most worthless trash, I will therefore leave it to those in want of medicine to inquire personally of men who have been cured by my medicines of the above diseases, and who can be found in almost every city and village throughout the State I consider such personal conviction far superior to certificates of persons that are far from being known to them in want of medicial aid.

But should any one care for written testimoulais or certificates regarding the cures performed by this medicine, they might call at my office, and I will show them certificates of true merit, which have been sent to me voluntarily, without applying for them, or by boring individuals to get them.

To satisfy the most scrupulous of men, also as a quarantee to those that have not had the opportunity of knowing the Doctor by reputation or personally. I have adjoined to every bottle of the Anti-Itheumatic Cordial, the certificate, under oath, of one of the most celebrated analytical chemists in poisous contained in this medicine, although it is a very powerful medicine, and has a very strong action on the human system, which it necessarily must have, to overcome the action of disease of such malignant character.
